Peninsula Communications, Inc  
P.O Box 109  
Homer AK 99603

Dear Mr Becker

This is to confirm telecon of 21 Feb 97 between you and Ms. Moira Dennis concerning demolition of facilities at the Pillar Mountain Radio Relay Site (RRS). As discussed, an Air Force team will arrive on Pillar Mountain RRS 7 Apr 97 to perform asbestos, site remediation, and facility demolition to include one of the parabolic antennas. A follow-on Air National Guard crew will arrive on site 1 Jun 97 to demolish remaining improvements on the site, including the antenna which supports your equipment.

We understand you are currently in the process of purchasing new equipment and obtaining licensing approval for a satellite up-link system to replace your existing radio equipment, including your equipment on the Air Force's Pillar Mountain Site. The Air Force would prefer that you vacate the site prior to 7 Apr 97. However, since you indicated the loss in advertising revenue and cost to bring the radio station back on-line if there is a break in radio service could be detrimental to Peninsula Communications, the Air Force will extend the deadline for removal of the equipment until 1 Jun 97. To ensure there is no miscommunications concerning the antenna you are currently using under Air Force License DACA85-3-96-02, please provide a point of contact at Kodiak who can physically identify the antenna containing your equipment to our preliminary demolition team.

The Air National Guard crew schedule is firm, and there is no possibility of rescheduling or delaying demolition plans. Until 1 Jun 97, we will work with you as much as possible to accommodate your use of the Air Force on-site equipment. However, we cannot permit any extensions past the 1 Jun 97 deadline, nor can we allow the demolition crew to work around your continued use or presence on the site past that date. Please ensure that all your equipment is removed and that you have vacated the Pillar Mountain RRS prior to the 1 Jun 97 deadline.

The Air Force is happy to have been able to provide you a license for use of the Pillar Mountain RRS site equipment for the past 12 years. We wish you luck at your new location and in your future endeavors. If you have questions, please contact Ms. Moira Dennis at 552-8757.

Sincerely

  
DAVID T. PETERS, Lt Col, USAF  
Commander

Re: Pillar Mountain Communication Lease Site #6

Dear Mr. Becker:

The Air Force will be in Kodiak in June to demolish the Pillar Mountain parabolic reflector on which your antenna is situated. Accordingly, this letter is formal notice of the City's intention to terminate your lease of Pillar Mountain Communication Lease Site #6 in accordance with Paragraph 2 of our July, 1994, lease agreement. The ground lease will be terminated thirty days from the date of this notice.

As you are aware, the Air Force antenna dish on which your antenna is mounted is scheduled for demolition June 1. If you will be removing your equipment earlier than that date, please advise us of the last day you will be using the lease site and we will refund a prorated portion of the rental you paid last August.

Sincerely,

CITY OF KODIAK

*William A. Maloney*

City Clerk

LICENSE FOR AN  
FM BROADCAST TRANSLATOR/BOOSTER STATION

Call Sign. K 290 AA

Subject to the provisions of the Communications Act of 1934, subsequent acts, and treaties, and all regulations heretofore or hereafter made by this Commission, and further Subject to conditions set forth in this license the licensee is hereby authorized to use and operate the radio transmitting apparatus hereinafter described.

1. Name of Licensee ..... PENINSULA COMMUNICATIONS, INC.
2. License term ending 3 a.m. Local Time ..... FEBRUARY 1, 1998
3. Principal community(ies) to be served ..... SELDOVIA, ALASKA
4. Primary Station ..... KWVV-FM, Channel 278, HOMER, AK
5. Via ..... Direct
6. Operating assignment ..... Channel No 290 105.90 MHz
7. Hours of operation ..... Unlimited
8. Transmitter ..... See 47 CFR, Sections 73.1660 & 74.1250  
Type Accepted
9. Transmitter power output ..... 50 watts (650 W ERP; DA maximum at 190')
10. Transmitting antenna location ..... 66140 Diamond Ridge Road, Homer, AK
11. North Latitude ..... 59° 41' 03"  
West Longitude ..... 151° 37' 51"
12. Transmitting Antenna ..... Scala, (2)CA5-150, two bay, five element yagi array,
13. Antenna supporting structure ..... Side-mounted on a steel tower
14. Overall height above ground ..... 19 meters (358 M=RCAMSL)
15. Main radiation lobe(s) oriented ..... 190 degrees, True
16. Obstruction marking specifications ..... In accordance with the following paragraphs of FCC Form 715  
None Required
17. Conditions ..... Not Applicable

The Commission reserves the right during said license period of terminating this license or making effective any changes or modification of this license which may be necessary to comply with any decision of the Commission rendered as a result of any hearing held under the rules of the Commission prior to the commencement of this license period or any decision rendered as a result of any such hearing which has been designated but not held, prior to the commencement of this license period.

This license is issued on the licensee's representation that the statements contained in licensee's application are true and that the undertakings therein contained, so far as they are consistent herewith, will be carried out in good faith. The licensee shall, during the terms of this license, render such service as will serve the public interest, convenience, or necessity to the full extent of the privileges herein conferred.

This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequencies designated in the license beyond the term hereof, nor in any other manner than authorized herein. Neither the license nor the rights herein granted shall be transferred, assigned, or in any manner either voluntarily or involuntarily disposed of, or indirectly by transfer of control of the licensee, if a corporation, to any person without the written consent of the Commission. This license is subject to the right of use or control by the Government of the United States conferred by Section 806 of the Communications Act of 1934.

Dated: JUL 17 1995

FEDERAL  
COMMUNICATIONS  
COMMISSION

Chief, Auxiliary Services Branch

5/22/97

EXHIBIT A - 2

Applicant, Peninsula Communications, Inc. (PCI) is currently licensee of KWVV-FM (Homer, Alaska) and also FM Translator station K285AA in Kodiak, Alaska. PCI has operated K285AA in Kodiak for about 8 years and has been plagued with a chronic signal fading problem due to the signal propagation path between the transmitter site on Diamond Ridge in Homer to the translator site on Pillar Mountain in Kodiak. The unusually long path (approximately 123 miles) lies almost entirely over salt water and is subject to weather phenomena including temperature inversion layer reflections of the signal, aurora borealis reflections and noise, and multi-path signals due to reflections between the salt water surface and temperature inversion layers. As a result the received signal is degraded at various times to the point where the translator will "mute" and go off the air. This has become a very aggravating problem with the station receiving complaints on a fairly regular basis.

PCI is proposing to build a relatively low power FM translator station for the purpose of testing signal propagation using relatively high gain directional stacked yagi's which will provide a very narrow, concise beam pattern from the transmitting antenna with very little high angle radiation. It is PCI's belief that the combination of very high ERP (100 KW) from KWVV-FM and very broad vertical radiation pattern from the typical 6 bay FM transmitting antenna results in multi-path signals arriving at the translator receive antenna in Kodiak which are out of phase and effectively cancel the input signal when all conditions are just right. PCI additionally believes that tests from PCI's FM translator K257DB for KPEN-FM (also located on Diamond Ridge) of received signal strength on Pillar Mountain to be very consistent in signal level, although not as strong as KWVV-FM. K257DB transmits with two stacked 10 element Yagi's at 190 degrees azimuth and 100 watts of transmitter output power. Therefore, although KWVV-FM transmits with much higher ERP, the higher radiation angles appear to be a very definite disadvantage and in fact, work to degrade the signal at various times.

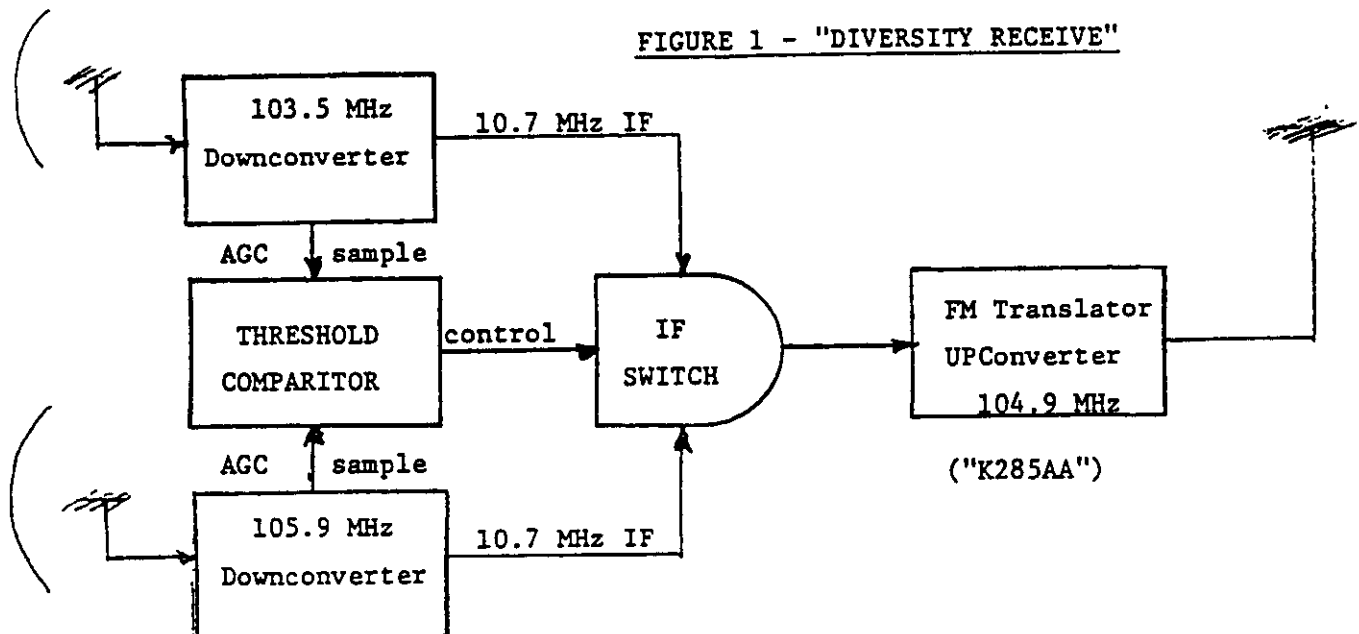

Sept. 18, 1991

Page 2

EXHIBIT A - 2 (Continued)

PCI President and Chief Engineer, David F. Becker, holds BSEE and MSEE degrees in Electronic Engineering, with specialties in RF Engineering and signal propagation, and also a lifetime FCC General Radiotelephone License. In particular the problem with the signal fading on KVVV-FM has perplexed PCI to the point where PCI would like to study the problem in depth and try to determine more information about what happens to signal propagation over a very long salt water path, how it is affected by atmospheric temperature inversions and what effects high northern latitudes have on propagation, including aurora borealis phenomenon.

The proposed FM translator station would provide the opportunity to install a "Diversity" receive system which is shown in Figure 1. The idea is to use a "Threshold Comparator" to sample FM downconverter AGC signal strength voltage and compare the levels. When the 103.5 MHz downconverter is in a "fade", the IF switch will select the 10.7 MHz output of the 105.9 MHz downconverter for the duration of the "fade". When the signal again exceeds the level of the 105.9 MHz signal, the IF switch will again switch back to the higher signal. Additionally, antenna diversity will be used by using two receive antennas which are about 300 feet apart and at different locations in order to provide two different propagation paths to the receiving site.

FIGURE 1 - "DIVERSITY RECEIVE"

Sept. 18, 1991

Page 3

EXHIBIT A - 2 (continued)

PCI is proposing to license this translator station to Seldovia, Alaska which lies exactly in line with the path to Kodiak at 190 degrees azimuth. The proposed translator signal pattern will be entirely contained within KWVV-FM's current 1 mV/meter signal contour. The FM band in this area of Southcentral Alaska is relatively uncrowded and there would be no problem of adding the proposed additional signal at 105.9 MHz. The proposed FM translator station would not adversely affect any other FM stations within several hundred miles of KWVV-FM.

The net result would be hopefully to improve reception to the 15,000 residents of Kodiak, while adding a second signal from KWVV-FM for the residents of Seldovia, Alaska. Additionally, it is hoped to learn more about signal propagation and methods to cure fading problems through a diversity receiving system. PCI respectfully requests approval of this proposed FM translator station in order to determine if it is possible to improve service to the Kodiak audience and therefore believes it would be in the public interest to grant the application. A map showing the geography of the locations of Homer, Seldovia and Kodiak follows in this Exhibit as page 4.

FEDERAL COMMUNICATIONS COMMISSION

WASHINGTON, D C 20554

IN REPLY REFER TO

18 FEB 1992

8930-MER

Peninsula Communications, Inc.  
P.O. Box 103  
Homer, Alaska 99603

In re: FM Translator Stations (New)

BPFT-910513TG  
102.3 MHz, Channel 272  
Seward, Alaska

BPFT-910513TH  
104.9 Channel 285  
Seward, Alaska

Dear Applicant:

This refers to the above-referenced applications for construction permits for proposed new FM translator stations to serve Seward, Alaska and your request for waiver of various Commission rules. You are the licensee of commercial Stations KPEN-FM and KWWV-FM, Soldotna and Homer, Alaska, respectively. The proposed translators will rebroadcast the signals of these stations. You request waiver of the rules so the stations can be fed by microwave or satellite facilities. In addition, you request waiver of the 10 watt transmitter power output (TPO) limitation of the rules so the stations can operate with 100 watts TPO.

In support of your waiver request, you assert that the translator will provide a first commercial FM service to the community of Seward which has a population of 3,921. You state that Seward is a "somewhat isolated area for radio due to the mountainous terrain." You propose to feed the translators via Alascom Aurora II C-Band satellite or via the State of Alaska microwave system because "off-the-air reception is impossible due to the terrain obstructions." You assert that these translators will "bring a much needed important new service to the community.

On June 1, 1991, the revised FM translator rules became effective. See In the Matter of Amendment of Part 74 of the Commission's Rules Concerning FM Translator Stations, ("Report and Order") 5 FCC Rcd. 7212 (1990), as modified by Order, 6 FCC Rcd. 2334 (1991). Section 74.1235 provides that translator operating power levels will be based on an effective radiated power (ERP) standard and not on the TPO standard previously used. The maximum ERP permitted pursuant to the new rules is 250 watts. We will grant your application with an authorized ERP of 250, the maximum permitted pursuant to the revised rules. Your request for waiver of the 10 watt power limitation is therefore moot.

You also request waiver to feed the proposed translator stations via satellite or microwave. Under 47 CFR § 74.1231, only noncommercial educational translators operating on the reserved band (Channels 201-220) are authorized to receive input signals via satellite or microwave, except in limited circumstances not present here. In addition, you seek waiver of Section 74.1232(d), which provides that an authorization for an FM translator station whose coverage contour extends beyond the protected contour of the commercial primary station will not be granted to the licensee or permittee of a commercial FM radio broadcast station. Thus, since you are the licensee of the proposed primary stations and the translator stations would be located outside the primary service contour of those FM stations, you are not eligible under the rule for an authorization for an FM translator station.

The Commission has, however, on a number of occasions recognized the unique nature of the communications industry in Alaska and the distinct lack of adequate communications services in the state. In Wrangell Radio Group, 75 FCC 2d 404 (1979), the Commission noted that Alaska contains numerous small, isolated, and remote villages. Many of these remote native villages are more than 500 miles apart. As a result, broadcast signals are not readily available off-the-air in most Alaskan communities, such as Seward. After careful consideration of your requests, I am of the view that the Commission's special concern for the availability of broadcast services in Alaska and the number of people who will receive full-service programming from the translator justify your waiver requests. Therefore, we think grant of your application will serve the public interest. Hence, we will grant your request for waiver of the rules, waive the appropriate rules and grant the applications.

Accordingly, for the reasons set forth above and pursuant to Section 0.283 of the Commission's Rules, your request for waiver of the Commission's Rules IS GRANTED and the requirements of Section 74.1231(b) and Section 74.1232(d) of the Commission's Rules, to the extent set forth above, ARE WAIVED and the above-referenced applications ARE GRANTED.

Sincerely,

  
Alan J. Schneider, Chief  
Auxiliary Services Branch  
Audio Services Division  
Mass Media Bureau

Dear Sirs;

Transmitted herewith, in triplicate, on behalf of Peninsula Communications, Inc. are FCC Form 303-S applications seeking license renewal for the following FM translators:

K257DB, Anchor Point/Seldovia, Alaska  
K272CN, Homer, Alaska  
K272DG, Seward, Alaska  
K274AB, Kodiak, Alaska  
K265CK, Kachemak City, Alaska  
K285AA, Kodiak, Alaska  
K285DU, Homer, Alaska  
K285EF, Kenai, Alaska  
K292ED, Kachemak City, Alaska  
K285EG, Seward, Alaska  
K283AB, Soldotna, Alaska

The application is accompanied by a check in the amount of \$495.00 in payment of the application processing fee and a four page FCC Form 159 Fee Remittance Advice.

Please contact the undersigned should you have any questions regarding this matter.

Very truly yours,

Peninsula Communications, Inc.

# SECTION II - TO BE COMPLETED BY ALL APPLICANTS

1. NAME OF LICENSEE OF AM, FM OR TV STATION		NAME OF LICENSEE OF FM OR TV TRANSLATOR OR LOW POWER TV STATION	
		Peninsula Communications, Inc.	
MAILING ADDRESS P.O. Box 109			
CITY	STATE	ZIP CODE	
Homer	AK.	99603-0109	

2. This application is for: ☒ Commercial ☐ Noncommercial

(a) ☐ AM ☐ FM ☐ TV

Call Letters	Community of License	
	City	State

(b) ☒ FM Translator ☐ TV Translator ☐ Low Power TV

Call Letters	Area Licensed to Serve	
	City	State
K274AB	Kodiak	AK.

Call Letters	Area Licensed to Serve	
	City	State

3. Attach as an Exhibit an identification of any FM booster or TV booster station for which renewal of license is also requested.

Exhibit No.

4. Is the applicant in compliance with the provisions of Section 310 of the Communications Act of 1934, as amended, relating to interests of aliens and foreign governments?

☒ Yes ☐ No

If No, attach as an Exhibit an explanation.

Exhibit No.

5. Since the filing of the applicant's last renewal application or any other application for the subject station(s), has an adverse finding been made or final action been taken by any court or administrative body with respect to the applicant or parties to the application in a civil or criminal proceeding, brought under the provisions of any law relating to the following: any felony; mass media related antitrust or unfair competition; fraudulent statements to another governmental unit; or discrimination?

☐ Yes ☒ No

If the answer is Yes, attach as an Exhibit a full disclosure concerning the persons and matters involved, including an identification of the court or administrative body and the proceeding (by dates and file numbers), and the disposition of the litigation. Where the requisite information has been earlier disclosed in connection with another application or as required by 47 U.S.C. Section 1.65(c), the applicant need only provide: (i) an identification of that previous submission by reference to the file number in the case of an application, the call letters of the station regarding which the application or Section 1.65 information was filed, and the date of filing; and (ii) the disposition of the previously reported matter.

Exhibit No.

6. Would a Commission grant of this application come within 47 C.F.R. Section 1.1307, such that it may have a significant environmental impact, including exposure of workers or the general public to levels of RF radiation exceeding identified health and safety guidelines issued by the American National Standards Institute?

☐ Yes ☒ No

NOTE: Licensees of FM translator stations transmitting with an effective radiated power (ERP) of 100 watts or less are not subject to the RF radiation requirements of 47 C.F.R. Section 1.1307(b).

If Yes, attach as an Exhibit an Environmental Assessment, as required by 47 C.F.R. Section 1.1311.

Exhibit No.

If No, explain briefly why not.

☐ Explanation

*I have examined the Commission's environmental requirements in 47 C.F.R. Section 1.1307 as outlined in Appendix C to the License Renewal Booklet. Based on my completion of the worksheets therein, I have determined that operation of my facilities will not have a significant environmental impact as defined by Section 1.1307, which includes consideration of the exposure of workers or the general public to levels of Radio Frequency radiation exceeding identified guidelines issued by the American National Standards Institute.*

## SECTION V: TO BE COMPLETED BY ALL APPLICANTS

FOR AM, FM OR TV APPLICANTS ONLY: Applicant has attached Sections I, II, III, and V only.

☐ Yes ☐ No

FOR FM TRANSLATOR, TV TRANSLATOR OR LPTV APPLICANTS ONLY: Applicant has attached Sections I, II, IV and V only.

☒ Yes ☐ No

FOR CO-OWNED TRANSLATOR AND PRIMARY STATION APPLICANTS ONLY: Applicant has attached Sections I, II, III, IV and V.

☐ Yes ☐ No

The APPLICANT hereby waives any claim to the use of any particular frequency or of the electromagnetic spectrum as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and requests an authorization in accordance with this application. (See Section 304 of the Communications Act of 1934, as amended.)

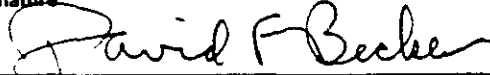

The APPLICANT acknowledges that all the statements made in this application and attached exhibits are considered material representations and that all the exhibits are a material part hereof and are incorporated herein as set out in full in the application.

### CERTIFICATION

1. By checking Yes, the applicant certifies, that, in the case of an individual applicant, he or she is not subject to a denial of federal benefits that includes FCC benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. Section 862, or, in the case of a non-individual applicant (e.g., corporation, partnership or other unincorporated association), no party to the application is subject to a denial of federal benefits that includes FCC benefits pursuant to that section. For the definition of a "party" for these purposes, see 47 C.F.R. Section 1.2002(b).

☒ Yes ☐ No

2. I certify that the statements in this application are true, complete, and correct to the best of my knowledge and belief, and are made in good faith.

Name David F. Becker	Signature 
Title President	Date September 25, 1995

WILLFUL FALSE STATEMENTS MADE ON THIS FORM ARE PUNISHABLE BY FINE AND/OR IMPRISONMENT (U.S. CODE, TITLE 18, SECTION 1001), AND/OR REVOCATION OF ANY STATION LICENSE OR CONSTRUCTION PERMIT (U.S. CODE, TITLE 47, SECTION 312(a)(1)), AND/OR FORFEITURE (U.S. CODE, TITLE 47, SECTION 503))

**SECTION IV : TO BE COMPLETED BY FM TRANSLATOR, TV TRANSLATOR and LPTV APPLICANTS ONLY**

1. Is the applicant's station currently operating and rebroadcasting the signal of an FM, TV or LPTV station?

☒ Yes ☐ No

If Yes, identify the station being rebroadcast:

Call Sign	Channel No.	City of License/Area Served
KPEN	269C3	Soldotna, AK

If No, attach as an Exhibit a statement of explanation, including the steps the applicant intends to take to resume operations.

Exhibit No.

2. Is the station being rebroadcast licensed to either the applicant or a commonly controlled entity?

☒ Yes ☐ No

If No, has the required retransmission consent been obtained?

☐ Yes ☐ No

If No, attach as an Exhibit an explanation.

Exhibit No.

3. Is the station being rebroadcast the same station as previously notified?

☒ Yes ☐ No

If No, attach as an Exhibit an explanation, including an identification of the station that was previously rebroadcast.

Exhibit No.

4. FOR LOW POWER TV APPLICANTS ONLY:

Have the Broadcast Station Annual Employment Reports (FCC Form 395-B) been filed with the Commission as required by 47 C.F.R. Section 73.3612?

☐ Yes ☐ No

If No, attach as an Exhibit an explanation.

Exhibit No.

5. FOR FM TRANSLATOR APPLICANTS ONLY:

(a) Is the applicant in compliance with 47 C.F.R. Section 74.1232(d) which prohibits the common ownership of a commercial primary station and an FM translator station whose coverage contour extends beyond the protected contour of the commercial primary station being rebroadcast? This restriction also applies to any person or entity having any interest in, or any connection with, the primary FM station.

☒ Yes ☐ No

If No, attach as an Exhibit an explanation.

Exhibit No.

(b) Is the applicant in compliance with 47 C.F.R. Section 74.1232(e) which prohibits an FM translator station whose coverage contour extends beyond the protected contour of the commercial primary station being rebroadcast from receiving any support (except for specified technical assistance), before, during or after construction, directly or indirectly, from the primary station or any person or entity having any interest in, or any connection with, the primary station?

☒ Yes ☐ No

If No, attach as an Exhibit an explanation.

Exhibit No.

EXHIBIT NO. 1

In approving the original construction permit and license for this translator, the Commission granted a request by Peninsula Communications, Inc. for a waiver of Sections 74.1232(d) and (e) of the rules. Peninsula is the licensee of KPEN(FM), Soldotna, Alaska. KPEN is the station that is rebroadcast on the subject translator. The translator operates outside the protected contour of KPEN. However, Peninsula is authorized by the Commission's waiver of Sections 74.1232(d) and (e) to operate the translator in its present mode.

LICENSE FOR AN  
FM BROADCAST TRANSLATOR/BOOSTER STATION

Call Sign: K274AB

Subject to the provisions of the Communications Act of 1934, subsequent acts, and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to conditions set forth in this license, the licensee is hereby authorized to use and operate the radio transmitting apparatus hereinafter described.

1. Name of Licensee \_\_\_\_\_: PENINSULA COMMUNICATIONS, INC.
2. License term ending 3 a.m. Local Time \_\_\_\_\_: APRIL 1, 1996
3. Principal community(ies) to be served \_\_\_\_\_: KODIAK, ALASKA
4. Primary Station \_\_\_\_\_: KPEN-FM, CHANNEL 269, SOLDOTNA, AK
5. Via \_\_\_\_\_: K257DB, ANCHOR POINT, AK
6. Operating assignment \_\_\_\_\_: Channel No. 274 102.7 MHz
7. Hours of operation \_\_\_\_\_: Unlimited.
8. Transmitter \_\_\_\_\_: Type Accepted **TEPCO, J-317+QEI, 675T150 AMPLIFIER PLUS THREE-WAY POWER DIVIDER**
9. Transmitter power output \_\_\_\_\_: 100 watts (0.029 KW INPUT TO EACH ANTENNA) (0.162 KW ERP: DA MAXIMUM)
10. Transmitting antenna location \_\_\_\_\_: END OF STATE ROAD, PILLAR MOUNTAIN, KODIAK, AK
11. North Latitude \_\_\_\_\_: 57 47 23  
West Longitude \_\_\_\_\_: 152 25 14
12. Transmitting Antenna \_\_\_\_\_: SCALA, HDCA-5, THREE BAY, FIVE ELEMENT YAGI ARRAY,
13. Antenna supporting structure \_\_\_\_\_: MAST-MOUNTED ON A PLATFORM
14. Overall height above ground \_\_\_\_\_: 4 METERS (354M=RCAMSL)
15. Main radiation lobe(s) oriented \_\_\_\_\_: 75, 148 AND 220 DEGREES, TRUE
16. Obstruction marking specifications \_\_\_\_\_: In accordance with the following paragraphs of FCC Form 715 (attached): **NONE REQUIRED**
17. Conditions \_\_\_\_\_: Not Applicable

The Commission reserves the right during said license period of terminating this license or making effective any changes or modification of this license which may be necessary to comply with any decision of the Commission rendered as a result of any hearing held under the rules of the Commission prior to the commencement of this license period or any decision rendered as a result of any such hearing which has been designated but not held, prior to the commencement of this license period.

This license is issued on the licensee's representation that the statements contained in licensee's application are true and that the undertakings therein contained, so far as they are consistent herewith, will be carried out in good faith. The licensee shall, during the terms of this license, render such service as will serve the public interest, convenience, or necessity to the full extent of the privileges herein conferred.

This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequencies designated in the license beyond the term hereof, nor in any other manner than authorized herein. Neither the license nor the rights herein granted shall be transferred, assigned, or in any manner either voluntarily or involuntarily disposed of, or indirectly by transfer of control of the licensee, if a corporation, to any person without the written consent of the Commission. This license is subject to the right of use or control by the Government of the United States conferred by Section 806 of the Communications Act of 1934.

	Telephone No. (include area code) (907) 235-7551		

2. Facilities authorized by construction permit

This application is for: ☒ FM Translator

☐ FM Booster

Call Sign: K274AB

Construction permit covered by this application

File Number	Date of Construction Permit	Construction began	Construction completed
BPFT -910513 TD	September 6, 1991	September 15, 1992	October 20, 1992

Is the station now in satisfactory operating condition and ready for regular operation?

☒ Yes ☐ No

If No, explain in attached Exhibit No. \_\_\_\_\_

For applicants that are not the licensee of the primary station, has written authority been obtained from the licensee of the station whose programs are to be retransmitted?

☐ Yes ☐ No

Apart from the apparatus constructed, have all the terms, conditions and obligations set forth in the above-described construction permit been fully met?

☒ Yes ☐ No

If No, state exceptions in attached Exhibit No. \_\_\_\_\_

4. Station Identification

Indicate how station identification will be made:

☐ FSK

☒ By Primary Station

☐ Amplitude Modulation of FM Aural Carrier

☐ Not Required

☐ Other (Specify)

If identification will be made by primary station, is current information on file with the primary station as to your call letters, exact location of your station, and the name, address and telephone number of the person to be contacted in an emergency to suspend operation of the translator?

☒ Yes ☐ No

## ENGINEERING DATA

## 5. Facilities authorized in construction permit.

a. Output Channel No. ✓ 274	Community or Communities being served:  ✓ KODIAK	Primary Station:  Call: KPEN-FM
b. Translator Input Channel No. or Call 257 / K257DB	State: ALASKA	City: ✓ SOLDOTNA
Transmitter Power Output 100 Watts W		State: ALASKA

## 6 Transmitter location

City KODIAK	County KODIAK ISLAND BOROUGH	State ALASKA
Address or other description of location End of State Road, Pillar Mountain, Kodiak, Ak.		Geographical coordinates of transmitting antenna to nearest second North Latitude      West Longitude 57 ° 47' 23"      152 ° 25' 14"

7. Does the apparatus constructed, the transmitter location, or mode of operation differ from that described in the application for construction permit or in the permit issued by the Commission? ☐ Yes ☒ No

If "Yes," describe in detail, by attaching Exhibit No. \_\_\_\_\_, the nature of the changes, particularly with regard to type of transmitter, transmitting antenna, antenna orientation, transmission line, or increase in overall height above ground in meters of either the transmitting or receiving antenna structure. Show recomputation of effective radiated power resulting from any such changes.

8. If antenna obstruction painting and lighting specifications were made a part of the construction permit, have these been installed as prescribed and in proper working order? ☐ Yes ☐ No

☒ Not Required

If "No," explain in attached Exhibit No. \_\_\_\_\_

9. Give name, address, ZIP Code, and telephone number of person(s) to contact if transmitter must be turned off in event of emergency:

David F. Becker P.O. BOX 109, HOMER, ALASKA (907) 235-7551

10. The applicant certifies that it will comply with applicable station identification rules. See 47 C.F.R. Sections 73.1201 and 74.1283. ☒ Yes ☐ No

The APPLICANT hereby waives any claim to the use of any particular frequency or of the electromagnetic spectrum as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and requests an authorization in accordance with this application. (See Section 304 of the Communications Act of 1934).

The APPLICANT represents that this application is not filed for the purpose of impeding, obstructing, or delaying determination on any other application with which it may be in conflict.

The APPLICANT acknowledges that all the statements made in this application and attached exhibits are considered material representations, and that all exhibits are a material part hereof and are incorporated herein as if set out in full in the application.
